Dear Nallathambi:

Form 10-K for the Fiscal Year Ended December 31, 2007

Note 2. Summary of Significant Accounting Policies

Revenue Recognition, page 52

1. We note your disclosure on page 25 where you indicate that you generate revenue from sale of software licenses and maintenance services. Tell us what percentage

- of your revenue is generated from the sale of software licenses. Also, please provide a detailed description of your software license sales (i.e. term vs. perpetual license) and tell us how your revenue recognition complies with the guidance under SOP 97-2.
2. Please clarify for us if you enter into multiple element arrangements. If so, tell us the nature and terms of your multiple element arrangements and the timing and period over which they are delivered. Also, tell us how the arrangement fee is allocated to each element and how you determine the VSOE of fair value for each element under the guidance of SOP 97-2 and EITF 00-21.
 3. On page 52, you indicate that “a portion of the membership revenue received is paid in form of a commission to clients and is reflected in other operating expenses.” Please explain to us the nature and terms of these arrangements. Is the portion of the fee that is paid to clients reflected as revenue when received and as operating expenses when the commissions are paid? Tell us why the fees paid to clients are reflected as operating expenses versus costs of sales. Also, tell us how you considered EITF 99-19 in accounting for such revenues and what percentage of your revenue is generated from such arrangements for the periods presented.
 4. We note that customer programming and professional consulting service revenue is recognized using the percentage of completion method. Please explain further the nature of these arrangements. Tell us how you considered footnote 1 of SOP 81-1 which does not permit the use of contract accounting for service contracts and provide us with an analysis, which demonstrates how this literature applies to the Company’s customer programming and professional consulting arrangements.

Note 3. Acquisitions

5. On page 8, you indicate that the Company acquired two companies in 2007 and eleven companies in 2006. With regards to these acquisitions, please explain further the following:
 - Tell us how you considered disclosure requirements of paragraph 51 of SFAS 141.
 - Tell us how you considered the requirements to file a Form 8-K pursuant to Item 1.01, Item 2.01 and Item 9.01 of Form 8-K.
 - Tell us how you considered the requirements of Article 3-05 and Article 11 of Regulation S-X to provide audited financial statements and pro-forma financial information for these acquisitions. In this regard, tell us how you considered these acquisitions, both individually and in the aggregate, in concluding that such financial information was not required. Further, we note that several of your acquisitions include earn-out provisions. In this regard,

tell us how you considered the contingent consideration when calculating the significance test.

6. We note your disclosures on page 56 where you indicate that when determining the fair value of assets and liabilities acquired, the Company uses various techniques including outside appraisals. Your disclosures on page 51 also reference their party valuations in estimating fair values in purchase business combinations. If you choose to rely on an independent third party, you should identify the independent firm and include the expert's consent when the reference is included in a filing in the 1933 Act environment. In this regard, it appears that this Form 10-K may be incorporated by reference into your previously filed Forms S-3, Forms S-4 and Forms S-8. Please tell us how you considered the guidance in Rule 436(b) of Regulation C and how you intend to comply with such guidance.

Note 8. Investment in Marketable Equity Securities, page 60

7. Please explain further the following with regards to your investment in DealerTrack's common stock:
 - We note that as a result of DealerTrack's IPO, the Company's ownership interest decreased from 21% to 16%. We further note that following DealerTrack's follow-on offering, your investment interest decreased further to 14%. Please explain, in detail, how you determined that that the Company should continue to account for this investment under the equity method following each of these transactions and tell us how you considered paragraph 17 of APB 18 your accounting for this investment.
 - Please provide the calculations that support the \$9.5 million and \$7.0 million gains recognized in fiscal 2005 and 2006, respectively.

Note 14. Earnings Per Share, page 67

8. We note that you have two classes of common stock outstanding. Tell us what consideration you have given to the two-class method for computing basic and fully diluted earnings per share for each class of your issued common stock. We refer you to paragraph 61(d) of SFAS 128 and EITF 03-6.

Note 16. Segment Information, page 70

9. We note your disclosure on pages 41 and 71 where you indicate that you generate over 10% of your revenue from international operations. Please tell us how you considered the guidance in paragraph 38 of SFAS 131 to separately disclose revenues and long-lives assets by geographic areas.

Exhibit 31

10. Please note that the language of the certifications required by Item 601(B)(31) of Regulation S-K must be provided exactly as stated therein. In this regard, when preparing certifications pursuant to Exchange Act Rule 13a-14(a), you should not include the title of the office held by the signatory in the first line of the certifications.

Form 8-K Filed February 20, 2008

11. We note you present an adjusted EBITDA (a non-GAAP measure), which excludes a number of recurring items in your Form 8-K filed on February 20, 2008. Please tell us how you have considered the guidance of Item 10(e) of Regulation S-K and Question 8 in the Frequently Asked Questions Regarding the Use of Non-GAAP Financial Measures to include the following disclosures with regards to your non-GAAP measures:
- the manner in which management uses the non-GAAP measure to conduct or evaluate its business;
 - the economic substance behind management's decision to use such a measure;
 - the material limitations associated with use of the non-GAAP financial measure as compared to the use of the most directly comparable GAAP financial measure;
 - the manner in which management compensates for these limitations when using the non-GAAP financial measure; and
 - the substantive reasons why management believes the non-GAAP financial measure provides useful information to investors.

Please ensure that your response addresses our above concerns, and if you propose to change your disclosures, please provided us with your proposed disclosures.
